OPEN AIR EVENT PRO SCREENS

Event Pro screens are built for programs that set up week after week, season after season. The free-standing A-frame stands on its rear braces on grass or concrete, staked and tethered, or ballasted on hard surfaces. It ships with a standard and a high-wind blower, and with constant airflow and double-stitched seams the screen holds its shape even with a small puncture.

3 YEAR WARRANTY

20 MPH WIND RATING

2 PERSON SETUP

FRAME MATERIAL
Thick PVC-coated airbag material, heavier than the Standard frame, resists abrasion and punctures through years of weekly use.

DOUBLE-STITCHED SEAMS
Rated for 20 mph winds, staked and tethered.

PROJECTION SURFACE
Seamless, wrinkle-free and matte white. It zips off for machine washing; air dry only.

100% FRONT AND REAR PROJECTION
The wide frame tubes clear the full image, so the projector can sit in front of the screen or behind it.

SCREEN BAGS
The screen packs into a weatherproof carry bag. The surface has its own bag.

REMOVABLE BLACK CURTAIN
For front projection it hangs behind the surface and blocks street lights, house lights and headlights. It also keeps the surface clean while the screen goes up and comes down. Unzip it at the top for rear projection.

TWO AIR BLOWERS
Standard and high-wind blowers, with a muffler box. Power runs all show.

STEEL RINGS TETHERS
Eight high-tension black tethers clip to steel rings sewn into the frame. Rust-proof steel stakes and a mallet are included.

VELCRO + ZIPPER AIR VENT
Open the vent to deflate the screen for packing.

FREE-STANDING A-FRAME
Rear braces hold the screen upright on grass or concrete. Stake and tether every setup per the setup guide, or ballast it on hard surfaces.

REPLACEMENT SURFACES
New surfaces ship direct for most Event Pro screens under six years old. Older frames come in to Orem for a new surface and zipper.

EVERY EVENT PRO KIT INCLUDES

Screen, zip-off surface, black curtain, two blowers with a muffler box, eight tethers, stakes and mallet, black ground cover tarp, carry bags and repair kit.

CINEBOX PRO EXTRAS

Included extras: six black triple-input power cords (four 50 ft, two 25 ft), eight XLR cables, two speaker stands with protective bags, HDMI 2.1 cables, adapters and three LED headlamps.

Optional extras: FM transmitter, $1,500 · outdoor projector enclosure, $1,899–$2,349 · subwoofers · 220V conversion · Honda Whisperwatt generator · heavy-duty screen cart · on-site training.

SUPPORT

Phone and FaceTime support at (866) 329-3180. Printed and online manuals come with every system, so new staff set up from the same instructions. On-site training is available.

CINEBOX PRO SYSTEM

CineBox™ Pro arrives pre-wired in a weatherproof rack case with a pull-out drawer and a laptop drawer. The mixer, players, microphones and power conditioner are connected before it ships, and the projector travels in its own waterproof hard-shell case.

POWER CONDITIONER
Rack lighting and a voltage indicator.

MICROPHONES
Wired and wireless Shure microphones.

PLAYBACK
MacBook Pro M5, a rack-mounted media player with WiFi, an external USB-C Blu-ray and an Amazon Firestick with one year of access.

CONNECTIONS
HDMI 2.1 cables, plus USB-C, Lightning, RCA and 3.5 mm adapters.

PROJECTOR
1080p HD LED, 4,500 to 6,000 lumens by screen size, in a waterproof hard-shell padded case. Brighter projectors are available.

RACK CASE
Weatherproof, with a pull-out drawer and a laptop drawer.

ROLLING CARTS

Rubbermaid carts with grass-friendly lockable wheels carry the gear and serve as the projection table, about 20 ft from the screen. Covers keep rain and sun off until showtime.

CINEBOX PRO PRICING

Systems: 12' $14,999 · 16' $17,499 · 20' $19,499
Screen kits: 12' $3,999 · 16' $4,499 · 20' $5,999
List prices. Shipping included. Quotes are valid for one year.

CINEBOX PRO AUDIO

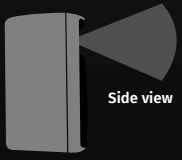
MACKIE POWERED SPEAKERS

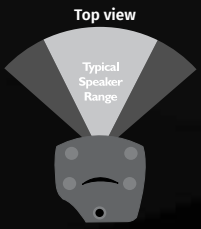
CineBox™ Pro ships with two Mackie SRM 2,000-watt powered speakers with Bluetooth input. Each speaker has its own amplifier, so there is no separate amp rack to carry. A full XLR set is included, typically six 50 ft and two 25 ft. The 8-channel rack mixer has Bluetooth input, with more digital mixing through a USB-C Focusrite into the MacBook Pro.

SRM 2000W
Mackie powered speaker with Bluetooth input. Two per CineBox Pro system.

PRO STANDS
Two professional speaker stands, each with its own bag.

SPEAKER COVERAGE





SPEAKER BAGS

Each speaker travels in its own padded, weatherproof bag.

ADD SUBWOOFERS

Powered subwoofers are quoted to match your system.

Also available JBL

BUILT FOR PROGRAMS THAT RUN EVERY SEASON

Event Pro systems serve parks departments, cities, schools and military bases that run a movie series every year. The equipment is assembled for mobility, packed in padded and weatherproof cases, and moved on rolling carts from the vehicle to the field.

MILITARY BASES

Family movie nights
Unit and holiday events
Large group training
GSA Advantage purchasing

PARKS AND RECREATION

Summer movie series
Movies in the park
Poolside and drive-in movies
Fundraisers

CITIES AND TOWNS

Downtown movie nights
Festivals and holidays
Shared across departments
Tax-exempt orders

SCHOOLS AND UNIVERSITIES

Campus movie nights
Orientation events
PTO fundraisers
Graduation week

ALSO AVAILABLE FROM OPEN AIR CINEMA

elite
cinebox

ELITE

Screens and systems from 25 to 40 feet, for festivals, drive-ins and audiences up to 6,000 seated.

STANDARD

Screens from 12 to 20 feet on a classic rectangular frame, best set up on grass. 1-year warranty.

ALREADY OWN ONE?

Replacement surfaces ship direct for most screens under six years old. Older frames come in to Orem for a new surface and zipper. Blowers, mufflers and parts are on our website, along with the Operator's Companion for sunset and start times, weather and projector placement.
