OPEN AIR STANDARD SCREENS

STEEL RINGS

Steel rings, sewn in with reinforced material, take the tethers at each corner.

ZIPPER AIR VENT

Open the vent to deflate the screen for packing.

PROJECTION SURFACE

Matte white, light-tested and wrinkle-free. It zips off for machine washing; air dry only.

**1 YEAR
WARRANTY**

**20 MPH
WIND RATING**

**ONE
PERSON SETUP**

STRAP SLIDERS

Set the tether tension by hand.

STAKES + TETHERS

Eight high-tension black tethers, rust-proof steel stakes, a mallet and cinch straps.

FRAME MATERIAL

Heavy-duty rip-stop airbag fabric, the same as expedition backpacks, with double-stitched seams.

AIR BLOWER

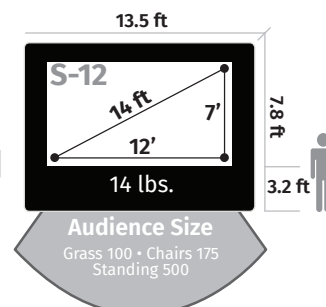

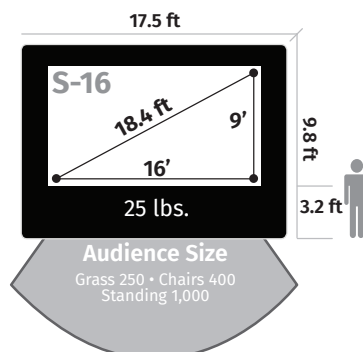

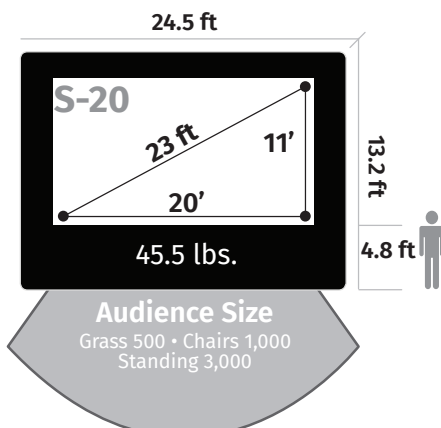

Inflates in under a minute, then runs all show in a muffler box.

BLACK CURTAIN

Removable. It hangs behind the surface and blocks street lights, house lights and headlights. Unzip it for rear projection.

IN EVERY SCREEN KIT

- Screen and surface bags
- Black ground cover tarp
- Repair kit and setup guide

LIST PRICES

	Screen kit	CineBox system
12'	\$1,499	\$6,599
16'	\$1,999	\$8,999
20'	\$3,199	\$11,499

Shipping included.
Quotes are valid for one year.

Made in the USA. Sewn and assembled in Utah.

CINEBOX STANDARD SYSTEM

CineBox™ Standard pairs the Standard screen with a complete projection and sound package, pre-wired and assembled for mobility. It is the same approach Open Air Cinema has followed since 2001: equipment built for years of use, parts for the systems you already own, and phone and FaceTime support from people who know them.

MEDIA PLAYER

Sony Blu-ray player with WiFi for Netflix and YouTube, plus an Amazon Firestick with one year of access.

AVAILABLE ADD-ONS

- FM transmitter for drive-in audio, \$1,500
- Outdoor projector enclosure, \$1,899-\$2,349
- Honda Whisperwatt generator
- Heavy-duty grass-friendly screen cart

AUDIO MIXER

Four-channel rack-mounted mixer with Bluetooth input, plus a wired microphone. Adapters connect laptops and phones.

PROJECTIONIST HEADLAMP

An LED headlamp for working the controls after dark.

PADDED CONSOLE CASE

The console travels pre-wired in a weather-resistant padded case, with a power conditioner and retractable rack lighting.

OUTDOOR PROJECTOR

1080p HD LED, 4,000 to 5,500 lumens by screen size, in a padded water-resistant case, on a rolling Rubbermaid cart.

POWERED SPEAKERS

Two Mackie Thump 1,300-watt speakers and XLR cables. Stands and a carry bag come with the 16' and 20' systems.

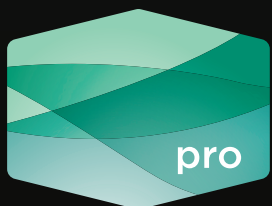

ALREADY OWN ONE?

Tell us your screen size and roughly when you bought it. Replacement surfaces ship direct for most screens under six years old. Older frames come in to Orem for a new surface and zipper, with about a two-week turnaround. Blowers, mufflers and parts are listed on our website.

The Operator's Companion there covers sunset and start times, weather and projector placement.

ALSO AVAILABLE FROM OPEN AIR CINEMA

cinebox

EVENT PRO

Free-standing A-frame screens from 12 to 20 feet, built for weekly setups. 3-year warranty.

cinebox

ELITE

Screens from 25 to 40 feet for festivals, drive-ins and military bases, seating up to 6,000.
